FORSYTH COUNTY SCHOOLS 2026/2027	**Forsyth County Schools** **High School (Non-EOC) Course Syllabus** **Introduction to Business and Technology** **Denmark High School**

Teacher Information (PLEASE PRINT, SIGN and RETURN the last page ONLY)

Teacher Name:	Elizabeth Vega
Contact Information:	F45429@forsythk12.org, (470) 533-2521 ext. 511281
Availability for Extra Help:	Dane Time and daily between 7:45-8:25am, by appointment. Additional times are available with advance notice.
Materials Needed:	At times, students may choose to bring their own calculator. Calculators built into Chromebooks can also suffice.

Course Information

Course Description:	Introduction to Business & Technology is the foundational course for Business and Technology, Entrepreneurship, and Human Resources Management pathways. The course is designed for high school students as a gateway to the career pathways above, and provides an overview of business and technology skills required for today's business environment. Knowledge of business principles, the impact of financial decisions, and technology proficiencies demanded by business combine to establish the elements of this course. Emphasis is placed on developing proficient fundamental computer skills required for all career pathways. Students will learn essentials for working in a business environment, managing a business, and owning a business. The intention of this course is to prepare students to be successful both personally and professionally in an information-based society. Students will not only understand the concepts, but apply their knowledge to situations and defend their actions/decisions/choices through the knowledge and skills acquired in this course. Employability skills are integrated into activities, tasks, and projects throughout the course standards to demonstrate the skills required by business and industry. Competencies in the co-curricular student organization, Future Business Leaders of America (FBLA), are integral components of both the employability skills standards and content standards for this course. Various forms of technologies will be highlighted to expose students to the emerging technologies impacting the business world. Professional communication skills and practices, problem-solving, ethical and legal issues, and the impact of effective presentation skills are taught in this course as a foundational knowledge to prepare students to be college and career ready. Introduction to Business & Technology is a course that is appropriate for all high school students. After mastery of the standards in this course, students should be prepared to earn an industry recognized credential: Microsoft Office Specialist for Word Core Certification. The pre-requisite for this course is advisor approval.
Course Standards:	See Link: https://case.georgiastandards.org/08fea92a-1cb9-4a9c-8b60-d8d06deaaf7b/4b970ff1-dc90-4ff4-9747-ad8ee6b8ca09/526
Course Text(s) and Resources:	Canvas (learning management system, used for the most up-to-date course materials and key dates); Google Suite, Microsoft Office 365 (Word, Excel, PowerPoint); FBLA (Future Business Leaders of America, co-curricular student organization); and web-based business simulations, portfolio, and project tools (e.g., accounting, marketing, and virtual company simulations) integrated throughout the course units, and may include NOCTI and FBLA resources.

Projected Course Timeline

Unit	Approximate Timeline	Major Assignments / Summatives
Semester 1		
1 – Career Exploration & Digital Success Toolkit	Approx. 4-5 weeks	Unit Test(s) and Digital Career Portfolio Showcase
2 – Business Communication	Approx. 2-3 weeks	Unit Test(s) and Business Pitch Challenge Project
3 – Tech Innovations in Business	Approx. 2-3 weeks	Unit Test(s) and Business Process Automation Project
4 – Startup Essentials & Entrepreneurship	Approx. 2-3 weeks	Unit Test(s) and Mini Business Plan Challenge
Semester 2		
5 – Modern Marketing & Social Media	Approx. 2-3 weeks	Unit Test and Marketing Campaign Project
6 – Leadership, HR & Business Law Essentials	Approx. 6 weeks	Unit Test and Virtual Company Simulation Project
7 – Accounting, Ethics & Risk Management	Approx. 5-6 weeks	Unit Test and Project Challenge
8 – Capstone Business Challenge	Approx. 2-3 weeks	Unit Test and Project

Access this course in Canvas for the most up-to-date course information, including ancillary materials and key dates.

Assessment & Grading

Assessment Categories

- Formative Assessments include, but are not limited to, homework, class work, labs, investigations, practice tests, rough drafts, and sections of projects/research papers/presentations.
- Summative Assessments include, but are not limited to, unit tests, final projects, final essays, formal lab reports, final research papers, and final presentations.

Grading Scale	Grading Weights	Grading Calculations
A = 90-100B = 80-89C = 70-79F = 0-69	Formative = 25%+Summative = 75%(midterm and final exam multiplier=1)	50% (Semester 1) + 50% (Semester 2)= Course Average

Final Exam Exemption: Students may exempt the final exam if they have a 90 or above course average.

Make-up Work

Make-up work is defined as work assigned during a student's absence, not work assigned prior to an absence. Students who are absent from school have five (5) school days upon returning to school to complete makeup work. The teacher has discretion to grant a longer period of time to make up the work if there are extenuating circumstances.

Summative Reassessment

To support continued learning, students may engage in one summative reassessment opportunity per semester per course.

Procedures:

- All formative assessments must be complete before a student takes a corresponding summative reassessment.
- The student must engage in re-teaching activities prior to the summative reassessment.

- The teacher collaborative team can determine one of two methods for reassessment: Engage the student in re-teaching activities and reassess the standards; or engage the student in re-teaching activities and use the midterm or final exam to reassess the aligned standards.
- To ensure accuracy in grading and reporting practices, full credit is applied to all reassessments.
- When a student does not show minimal proficiency of standards on multiple summative assessments, a multi-tiered system of supports will be put in place to assist the student in reaching proficiency.
- If a student is absent (for any reason) during a summative assignment, they will not be given a Summative Reassessment opportunity.

Student Responsibilities

Academic Integrity

It is the expectation of Forsyth County Schools that students exhibit academic integrity when submitting evidence of learning. When students submit evidence that does not authentically represent what they know and can do, the evidence is rendered invalid. Examples of academic dishonesty are outlined in both the Family Engagement Guide & Student Handbook and The Forsyth County Schools Code of Conduct. Depending on the severity of the situation, academic dishonesty/cheating may result in the loss of credit, completing an alternative assignment and/or disciplinary consequences up to a tribunal referral.

Consequences for High School Students:

- First Offense: Parent contact + academic integrity contract + take a different assessment with a maximum assessment score of up to 60%
- Second Offense: Parent contact + loss of credit up to 100% + removal from honor clubs/societies + possible in-school suspension or out-of-school suspension
- Third Offense: Parent conference + loss of credit up to 100% + possible out-of-school suspension
- Academic Integrity offenses will not reset each school year. For example: If a student has an academic integrity offense during 9th grade and another one in 10th grade, the offense in 10th grade would be considered their second overall offense.
- Standardized Assessments: Any suspicion or instances of cheating on standardized tests will be reported to the governing agency and, based on the severity of the behavior, will receive disciplinary consequences.
- Severe Offenses: Should a student engage in behavior that compromises the integrity of an assessment (i.e., theft of assessment, pictures/dissemination of content, etc.), immediate and more severe consequences (up to a disciplinary tribunal) may be applied.

**Students who face consequences for submitting work that does not reflect their own knowledge and skills may only reassess in accordance with the FCS Academic Integrity Consequences for High School Students outlined above.*

Responsible Use of Artificial Intelligence

Artificial Intelligence refers to computer systems that are trained with data to accomplish tasks normally requiring human intelligence. AI is used across industries and communities and can serve as a helpful tool in educational settings. Students should learn how to evaluate if and when they should use AI and develop responsible and ethical practices when using AI tools. Students with Forsyth County Schools are expected to uphold the highest standards of academic integrity. This includes the responsible use of emerging technologies such as artificial intelligence.

Students will:

- Use approved age-appropriate AI tools for educational purposes only
- Follow teacher guidance on the use of AI tools
- Submit work that is fundamentally my own and provide proper citations when AI is used
- Evaluate the purpose, safety, and the trustworthiness of AI tools before use
- Review and critically assess output of AI tools recognizing that AI may contain bias and inaccuracies
- Not use AI tools to propagate harmful, misleading, offensive or inappropriate content

All members of Forsyth County Schools' community agree to follow the Forsyth County Schools Code of Conduct, school rules and commit to these responsible use guidelines.

School/Content Team Information

FCS High School Distraction-Free Learning Information

FCS High School Cell Phone/Electronic Device Contract: In alignment with GA HB340, the Distraction-Free Education Act, which mandates that local school systems establish policies governing personal electronic device use for students in kindergarten through eighth grade, Forsyth County Schools has extended these restrictions to include high school students. Under this policy, high school students' personal electronic devices must remain secured and out of sight from 8:25 AM until the end of the school day at 3:40 PM, except for permitted use during lunch periods.

“Personal electronic device” means any portable electronic device capable of transmitting, receiving, or accessing communications, data, or media. This term includes, but is not limited to personal laptops and headphones, smartphones, smartwatches, tablets, e-readers, smart glasses and other devices with functionalities such as wireless communication, internet access, messaging, video recording, gaming, social media access, or data transmission.

Teacher Software Permission Request

Forsyth County Schools — Digital Resources and Online Services Notice

Forsyth County Schools (FCS) utilizes digital resources, online services, and educational technology tools to support teaching, learning, communication, assessment, and student engagement. In order for students to access and use these services, FCS may be required to provide vendors with limited student information such as a student's name, school-issued email address, grade level, student identifier, class enrollment, or other information necessary to create and manage student accounts.

Several federal laws guide how student information is protected when educational technology is used in schools:

Children's Internet Protection Act (CIPA)

FCS maintains Internet safety measures designed to protect students while using district-provided technology and Internet access. As required by the Children's Internet Protection Act (CIPA), FCS utilizes technology protection measures intended to block or filter access to visual content that is obscene, child pornography, or otherwise harmful to minors. FCS also provides instruction regarding appropriate online behavior, online safety, and cyberbullying awareness.
http://fcc.gov/cgb/consumerfacts/cipa.html

Children's Online Privacy Protection Act (COPPA)

The Children's Online Privacy Protection Act (COPPA) applies to operators of websites and online services that collect personal information from children under the age of 13. When an online service is used solely for educational purposes and under the school's authority, schools may provide consent on behalf of parents in certain circumstances. Parents are encouraged to review the privacy policies of the services their students use to better understand how student information is collected, used, shared, and protected.
https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) protects the privacy of student education records. FERPA generally permits schools to disclose student information to contractors, consultants, and service providers acting as “school officials” when they perform institutional services, are under the direct control of the school district regarding the use and maintenance of student records and use the information only for authorized educational purposes. Parents retain all rights afforded under FERPA, including the right to inspect and review their child's education records.
http://studentprivacy.ed.gov/

Parent Review and Consent

FCS is committed to transparency regarding the digital resources used in our schools. Teachers send home a list of instructional applications and online services that will be used in your student's class or program including links to each vendor's privacy policy and terms of service.

Please review this information carefully. If a resource requires parent permission under district procedures, complete the consent section provided with the application list. By granting permission, you acknowledge that student information necessary to establish and maintain the student's account may be disclosed to the vendor for educational purposes.

Questions regarding a specific application or the information shared with a vendor may be directed to your school's administration or district office contact.
